

Please do not allow LPFM expansion to take priority over K-LOVE radio station, which I listen to on 99.1 FM in the Sacramento area. I started listening to K-LOVE over 3 years ago during a very stressful time in my life and never went back to other radio stations. It is such an uplifting and encouraging station. Now that I'm a new mother, I really appreciate that I don't have to worry about what my son hears on K-LOVE. It is the only station our community has to listen to that does not play commercials or anything offensive. It affects people deeply and transforms lives every day from despair to hope. (I know personally!) There is really nothing like it and it would be a tragedy to lose K-LOVE. Please don't allow this to happen. Thank you, Maureen Hoffman
